ANPEC ELECTRONICS CORPORATION AND SUBSIDIARIES CONSOLIDATED FINANCIAL STATEMENTS AND INDEPENDENT AUDITORS' REPORT DECEMBER 31, 2021 AND 2020

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

Anpec Electronics Corporation and subsidiaries

Declaration of Consolidated Financial Statements of Affiliated Enterprises

For the year ended December 31, 2021, pursuant to "Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises," the Company that is required to be included in the consolidated financial statements of affiliates, is the same as the Company required to be included in the consolidated financial statements of parent and subsidiary companies under International Financial Reporting Standard No. 10. Also, if relevant information that should be disclosed in the consolidated financial statements of affiliates has all been disclosed in the consolidated financial statements of parent and subsidiary companies, it shall not be required to prepare separate consolidated financial statements of affiliates.

Hereby declare,

Anpec Electronics Corporation

Representative: CHIH-HSIN, WANG

March 23, 2022

INDEPENDENT AUDITORS' REPORT

PWCR21000413

To the Board of Directors and Shareholders of Anpec Electronics Corporation

Opinion

We have audited the accompanying consolidated balance sheets of Anpec Electronics Corporation and subsidiaries (the "Group") as at December 31, 2021 and 2020, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and generally accepted auditing standards in the Republic of China. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group's 2021 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we

do not provide a separate opinion on these matters.

Key audit matters for the Group's 2021 consolidated financial statements are stated as follows:

Timing of sales revenue recognition

Description

One of the sales transaction methods of the Group is to place inventories in distribution warehouses and sales revenue is recognised after customers picked up goods from the distribution warehouses. Given that the consistency between the timing of delivery and timing of revenue recognition is significant to the financial statements, we considered the timing of revenue recognition from distribution warehouse sales a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

- 1. Understood the operation nature of the Group and evaluated the reasonableness of its revenue recognition policy.
- 2. Understood and tested the internal control procedures in relation to the sales transaction cycle to evaluate managements' internal control over timing of revenue recognition.
- 3. Sampled the sales transactions from distribution warehouses during a certain period before and after the balance sheet date, reviewed trade terms on customer purchase orders or contract documents, checked supporting documents of goods transferred provided by the warehouse custodians, assessed the timing of transferring control over goods whose sales revenue was recognised and ensured the sales transactions are recorded in proper periods.
- 4. Performed conformation for the inventory quantities of significant distribution warehouses and agreed the results to the accounting records to ensure the accuracy of the distribution warehouses' inventory quantities at the end of the period.

Evaluation of inventories

Description

The Group primarily manufactures and sells products such as power IC, component and its module,

wireless and network communication IC and photoelectric driver IC. Inventories are stated at the lower of cost and net realisable value. Please refer to Note 4(13) and 5(2) for the accounting policies on evaluation of inventories and the uncertainty of accounting estimates applied on evaluation of inventories.

Given that the calculation of the net realisable value for inventories over a certain age and individually identified as obsolete or slow-moving involves estimation uncertainty and there is a huge variety in inventory items which requires substantial amount of time for performing audit procedures, we considered the evaluation of inventories a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

- 1. Assessed the reasonableness of accounting policies on evaluation of inventories.
- 2. Checked supporting documents of inventory movement transactions and verified the appropriateness of inventory aging reports used by management for evaluation.
- 3. Sampled individual inventory and checked against the latest purchase or sale price information for the net realisable value for inventory evaluation and referred to inventory clearance estimated from historical information for the net realisable value for inventories over a certain age and individually identified as obsolete or slow-moving to assess the reasonableness of net realisable value.
- 4. Tested the comparison results of inventory cost and net realisable value and then assessed the adequacy of allowance for inventory valuation loss.

Other matter – Parent company only financial reports

We have audited and expressed an unqualified opinion on the parent company only financial statements of Anpec Electronics Corporation as at and for the years ended December 31, 2021 and 2020.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory

Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so. Those charged with governance, including the audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the generally accepted auditing standards in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the generally accepted auditing standards in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Cheng, Ya-HueiLi, Tien-YiFor and on Behalf of PricewaterhouseCoopers, TaiwanMarch 23, 2022

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

ANPEC ELECTRONICS CORPORATION AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. History and Organization

Anpec Electronics Corporation (the "Company") was incorporated as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.). The Company and its subsidiaries (collectively referred herein as the "Group") are primarily engaged in research, development, production, manufacturing and sales of power IC, component and its module, wireless and network communication IC and photoelectric driver IC.

2. The Date of Authorization for Issuance of the Financial Statements

These consolidated financial statements were authorised for issuance by the Board of Directors on March 23, 2022.

- 3. Application of New Standards, Amendments and Interpretations
 - (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC") New standards, interpretations and amendments endorsed by the FSC effective from 2021 are as follows:

	Effective date by
	International Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 4, 'Extension of the temporary exemption from applying IFRS 9'	January 1, 2021
Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16, 'Interest Rate Benchmark Reform— Phase 2'	January 1, 2021
Amendment to IFRS 16, 'Covid-19-related rent concessions beyond 30 June 2021'	April 1, 2021(Note)
Note : Earlier application from January 1, 2021 is allowed by FSC.	

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2022 are as follows:

	Effective date by
	International
	Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 3, 'Reference to the conceptual framework'	January 1, 2022
Amendments to IAS 16, 'Property, plant and equipment: proceeds before intended use'	January 1, 2022
Amendments to IAS 37, 'Onerous contracts— cost of fulfilling a contract'	January 1, 2022
Annual improvements to IFRS Standards 2018–2020	January 1, 2022

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(3) Effect of IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

	Effective date by
	International Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets	To be determined by
between an investor and its associate or joint venture'	International Accounting
	Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 1, 'Classification of liabilities as current or non- current'	January 1, 2023
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction'	January 1, 2023

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers", International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs").

- (2) Basis of preparation
 - A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
 - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
 - B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.
- (3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

- (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
- (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results

in the non-controlling interests having a deficit balance.

- (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.
- (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

Name of	Name of	Main business	Owners	ship(%)	
investor	subsidiary	activities	December 31, 2021	December 31, 2020	Description

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.
- B. Translation of foreign operations

The operating results and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (c) All resulting exchange differences are recognised in other comprehensive income.

- (5) <u>Classification of current and non-current items</u>
 - A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
 - B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (a) Liabilities that are expected to be settled within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- (6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

- (7) Financial assets at fair value through profit or loss
 - A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
 - B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
 - C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
 - D. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at amortised cost

The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

- (9) Accounts and notes receivable
 - A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
 - B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- (10) Impairment of financial assets

At each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(11) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(12) Leasing arrangements (lessor)-lease receivables/ operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognised in profit or loss on a straight-line basis over the lease term.

(13) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, other direct costs and related production overheads. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(14) Property, plant and equipment

A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.

B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

- C. Property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures	$10 \sim 50$ years
Machinery and equipment	$3 \sim 10$ years
Computer and telecommunication equipment	$3 \sim 10$ years
Transportation equipment	$5 \sim 10$ years
Office equipment	$5 \sim 10$ years
Leasehold improvements	$5 \sim 6$ years
Other equipment	$3 \sim 10$ years

- (15) Leasing arrangements (lessee)-right-of-use assets/ lease liabilities
 - A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
 - B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate.

Lease payments are comprised of the following:

- (a) Fixed payments, less any lease incentives receivable;
- (b) Variable lease payments that depend on an index or a rate;
- (c) The exercise price of a purchase option, if the lessee is reasonably certain to exercise that option; and
- (d) Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
 - (a) The amount of the initial measurement of lease liability; and
 - (b) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(16) <u>Investment property</u>

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 10 ~ 50 years.

(17) Intangible assets

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 3 to 5 years.

(18) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(19) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(20) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(21) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

(22) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(23) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

- (b) Defined benefit plans
 - i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.
 - ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
 - iii. Past service costs are recognised immediately in profit or loss.
- C. Employees' compensation and directors' and supervisors' remuneration
- Employees' compensation and directors' and supervisors' remuneration are recognised as
 expense and liability, provided that such recognition is required under legal or constructive
 obligation and those amounts can be reliably estimated. Any difference between the resolved
 amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.
 If employee compensation is paid by shares, the Group calculates the number of shares based on
 the closing price at the previous day of the board meeting resolution.

(24) Employee share-based payment

- A. For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest.
- B. Restricted stocks:
 - (a) Restricted stocks issued to employees are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period.
 - (b) For restricted stocks where those stocks do not restrict distribution of dividends to employees and employees are not required to return the dividends received if they resign during the vesting period, the Group recognises the fair value of the dividends received by the employees who are expected to resign during the vesting period as compensation cost at the date of dividends declared.
 - (c) For restricted stocks where employees do not need to pay to acquire those stocks, if the employees resign or pass away due to non-occupational accident before fulfilling the vesting condition, the Company will recover the shares without compensation and make retirement registration.
- (25) Income tax
 - A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
 - B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
 - C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the

time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognised for the carryforward of unused tax credits resulting from research and development expenditures to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilised.

(26) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

(27) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders or Board of Directors. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(28) <u>Revenue recognition</u>

Sales of goods

A. The Group manufactures and sells products such as power IC, component and its module, wireless and network communication IC and photoelectric driver IC. Sales are recognised when

control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.

- B. Revenue from these sales is recognised based on the price specified in the contract. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.
- (29) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group's chief operating decision maker is responsible for allocating resources and assessing performance of the operating segments.

5. Critical Accounting Judgements, Estimates and Key Sources of Assumption Uncertainty

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors; and the related information is addressed below:

(1) <u>Critical judgements in applying the Group's accounting policies</u>

None.

(2) Critical accounting estimates and assumptions

Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of December 31, 2021, the carrying amount of inventories was \$774,517.

6. Details of Significant Accounts

(1) Cash and cash equivalents

	Decer	mber 31, 2021	December 31, 2020		
Cash on hand and petty cash	\$	433	\$	649	
Checking accounts and demand deposits		400,269		283,689	
Time deposits		1,326,685		706,100	
Cash equivalents - Repurchase bonds (RP)		132,846		93,984	
	\$	1,860,233	\$	1,084,422	

A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote. The maximum exposure to credit risk on the balance sheet date are the carrying amount of cash and cash equivalents.

B. The Group has no cash and cash equivalents pledged to others.

(2) Financial assets at fair value through profit or loss

Items		December 31, 2021		December 31, 2020		
Current items:						
Financial assets mandatorily measured at fair value						
through profit or loss						
Beneficiary certificates	\$	170,000	\$	170,000		
Valuation adjustment		4,186		3,796		
-	\$	174,186	\$	173,796		

A. Amounts recognised in profit or loss in relation to financial assets at fair value through profit or loss are listed below:

	Yeaer ended December 31						
Items	2021		2020				
Financial assets mandatorily measured at fair							
value through profit or loss							
Beneficiary certificates	\$		390	\$		683	

B. The Group has no financial assets at fair value through profit or loss pledged to others as collateral.

C. Information relating to credit risk of financial assets at fair value through profit or loss is provided in Note 12(2).

(3) Financial assets at amortized cost

Items	Dece	mber 31, 2021	December 31	, 2020
Current items:				
Time deposits mature in excess of three				
months	\$	370,000	<u>\$</u>	

A. Amounts recognised in profit or loss in relation to financial assets at amortised cost are listed below:

	Y			ber 31		
	2021			2020		
Interest income	\$	658	\$		-	

B. As at December 31, 2021 and 2020, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at amortised cost held by the Group was \$370,000 and \$0, respectively.

C. The Group has no financial assets at amortised cost pledged to others as collateral.

D. Information relating to credit risk of financial assets at amortised cost is provided in Note 12(2). (4) Notes and accounts receivable

	Dece	ember 31, 2021	December 31, 2020		
Notes receivable	\$	19	\$	1,952	
Less: Allowance for uncollectible accounts		_		_	
	\$	19	\$	1,952	
Accounts receivable	\$	1, 400, 518	\$	1, 104, 313	
Accounts receivable due from related parties		_		-	
Less: Allowance for uncollectible accounts		_		_	
	\$	1, 400, 518	\$	1, 104, 313	

A. The ageing analysis of accounts receivable and notes receivable is as follows:

	 December 31, 2021				December 31, 2020			
	Accounts				Accounts			
	 receivable		receivable Notes receivable		receivable	Notes receivable		
Not past due	\$ 1,399,254	\$	19	\$	1,103,813	\$	1,952	
Up to 30 days	550		-		500		-	
31 to 90 days	714		-		-		-	
91 to 180 days	-		-		-		-	
Over 181 days	 -		_		-		_	
	\$ 1,400,518	\$	19	\$	1,104,313	\$	1,952	

The ageing analysis of accounts receivable was based on past due date, and the ageing analysis of notes receivable was based on the maturity date.

- B. As of December 31, 2021 and 2020, accounts receivable and notes receivable were all from contracts with customers. And as of January 1, 2020, the balance of receivables from contracts with customers amounted to \$1,059,937.
- C. As of December 31, 2021 and 2020, the Group holds bank deposits, promissory notes, real estate and checks as collaterals for accounts receivable, and the fair value amounted to \$1,677,321 and \$1,344,500, respectively.
- D. As at December 31,2021 and 2020, without taking into account any collateral held or other credit

enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's notes receivable and accounts receivable was \$19 and \$1,952, \$1,400,518 and \$1,104,313, respectively.

- E. Information relating to credit risk of accounts receivable and notes receivable is provided in Note 12(2).
- (5) Inventories

	December 31, 2021						
		Allowance for market value					
			dec	eline and loss for obsolete and			
		Cost slow-moving inventories				Book value	
Raw materials	\$	69,170	(\$	17,211)	\$	51,959

(7) <u>Leasing arrangements – lessee</u>

- A. The Group leases various assets including land, buildings and transportation equipment. Rental contracts are typically made for periods of 2 to 20 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.
- B. The carrying amount of right-of-use assets and the depreciation expense are as follows:

	Decem	ber 31, 2021	December 31, 2020		
	Carry	ing amount	Carrying amount		
Land	\$	135,964	\$	139,983	
Buildings		1,468		1,456	
Transportation equipment		2,791		5,023	
	\$	140,223	\$	146,462	
		Year ended 2021	1 December 31 2020		
	Deprecia	ation expense	Deprec	iation expense	
Land	\$	4,019	\$	4,019	
Buildings		3,511		6,439	
Transportation equipment		2,231		3,817	
	\$	9,761	\$	14,275	

C. For the years ended December 31, 2021 and 2020, the additions to right-of-use assets were \$3,522 and \$3,527, respectively.

D. The information on profit and loss accounts relating to lease contracts is as follows:

	Year ended December 31					
		2021		2020		
Items affecting profit or loss						
Interest expense on lease liabilities	\$	2,200	\$	2,325		
Expense on short-term lease contracts		2,642		958		
Gain on sublease of right-of-use assets		-		871		

- E. For the years ended December 31, 2021 and 2020, the Group's total cash outflow for leases were \$13,710and \$16,632, respectively.
- (8) <u>Leasing arrangements lessor</u>
 - A. The Group leases various assets including buildings and structures. Rental contracts are typically made for periods of 1 and 3 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. To secure the use of leased assets, the lessee would usually be required to provide a security deposit, and as of December 31, 2021, the Group had received a security deposit of \$2,660.

- B. For the years ended December 31, 2021 and 2020, the Group recognized rent income in the amounts of \$18,797 and \$18,757, respectively, based on the operating lease agreement, which does not include variable lease payments.
- C. The maturity analysis of the lease payments under the operating leases is as follows:

$\begin{array}{c c c c c c c c c c c c c c c c c c c $		Decen	nber 31, 2021	Decer	nber 31, 2020

	\$ 9.307	\$	10.029

(11) Other payables

	Dece	mber 31, 2021	Dece	mber 31, 2020
Employees' compensation payable	\$	262,770	\$	127,077
Accrued expenses - bonus		110,208		90,122
Payables for machinery and equipment		19,577		13,583
Directors' remuneration payable		38,929		18,826
Other accrued expenses		146,262		98,464
	\$	577,746	\$	348,072

(12) Pensions

A. (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are

based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions for the deficit by next March.

(b) The amounts recognised in the balance sheet are as follows:

	De	ecember 31, 2021	December 31,	2020
Present value of defined benefit obligations	(\$	41,755)	(\$ 2	17,006)
Fair value of plan assets		38,144		37,847
Net defined benefit liability	(<u>\$</u>	3,611)	(<u>\$</u>	9,159)

(c) Movements in net defined benefit liabilities are as follows:

2021	Present value of defined benefit obligations		Fair value of plan assets		Net defined benefit liability	
At January 1	(\$	47,006)	\$	37,847	(\$	9,159)

- (d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitisation products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorised by the Regulator. The Company has no right to participate in managing and operating that Fund and therefore, the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31,2021 and 2020 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.
- (e) The principal actuarial assumptions used were as follows:

	Year ended December 31				
	2021	2020			
Discount rate	0.75%	0.40%			
Future salary increases	4.00%	4.00%			

Assumptions regarding future mortality experience are set based on future mortality rate was estimated based on the 6th Taiwan Standard Ordinary Experience Mortality Table and experience.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

		Discount rate			Fu	ture sala	ry increas	es
	Increase	0.25%	Decrease	Decrease 0.25%		Increase 0.25%		e 0.25%
December 31, 2021								
Effect on present value								
of defined benefit								
obligation	(\$	1,379)	\$	1,440	\$	1,391	(\$	1,340)
December 31, 2020								
Effect on present value								
of defined benefit								
obligation	(<u>\$</u>	1,593)	<u>\$</u>	1,665	\$	1,602	(<u>\$</u>	1,542)

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analying sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

- (f) Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2022 amounts to \$1,057.
- B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
 - (b) Supec (Suzhou) Co., Ltd. has a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on certain percentage of employees' monthly salaries and wages. The contribution percentage for the years ended December 31, 2021 and 2020 was 15%. Other than the monthly contributions, the Group has no further obligations.
 - (c) The pension costs under the defined contribution pension plan of the Group for the years ended December 31, 2021 and 2020 were \$21,001 and \$20,212, respectively.

(13) Share-based payment

A. For the years ended December 31, 2021 and 2020 the Group's share-based payment arrangements were as follows:

		Quantity	Contract	
Type of arrangement	Grant date	granted	period	Vesting conditions
Restricted stocks to employees	2018.11.09	730	2 years	1 years vested 50%
				2 years vested 50%

2020

(16) <u>Retained earnings</u>

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. After that, special reserve shall be set aside or reversed in accordance with the related laws or the regulations made by the regulatory authority. The remainder shall be proposed as the dividend or bonus distribution by the Board of Directors and resolved by the shareholders. In accordance with the Company Act Article 240, the Company may authorize the distributable dividends and bonuses in whole or in part may be paid in cash after a resolution has been adopted by a majority vote at a meeting of the board of directors attended by two-thirds of the total number of directors; and in addition thereto a report of such distribution shall be submitted to the shareholders' meeting. The provisions of the resolution of the shareholders' meeting are not applicable.
- B. The Company's dividend policy is summarised below: To meet future capital requirements and long-term financial plan, and meeting shareholders' needs for cash inflows, earnings can be distributed to shareholders as dividends. Cash dividends shall account for at least 10% of the total dividends distributed, provided that the type and rate of such dividends may be adjusted by resolution of the shareholders' meeting depending on the actual net income and funds status.

- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings. When the Company adopted IFRSs for the first time in 2013, a special reserve of \$5,597 was provided at the same amount according to the exemptions regulation of IFRS 1 elected by the Company to transfer the cumulative translation effect to the retained earnings portion at the transition date.
- E. The appropriation earnings of 2021 earnings as resolved by the Board of Directors on March 23, 2022 and the appropriation of 2020 earnings as resolved by the stockholders' meeting on August 30, 2021 are as follow:

	_

B. Post-employment benefits are arising from pensions.

8. Pledged Assets

None.

9. Significant Contingent Liabilities and Unrecognised Contract Commitments

(1) Contingencies

None.

(2) Commitments

The subsidiary – Sinpower Semiconductor Inc. entered into a capacity guarantee contract with a supplier to ensure stable foundry production capacity, and prepaid long-term payments to safeguard performance of the contract. In addition, the subsidiary - Sinopower Semiconductor Inc. prepaid capacity guarantee deposits to reserve the supplier's production capacity, and the deposits will be returned upon the fulfillment of contractual obligations.

10. Significant Disaster Loss

None.

11. Significant Events after the Reporting Period

None.

- 12. Others
 - (1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain a healthy capital base, the Group considers future operating capital needs, capital expenditures and dividend expenditures through financial analysis, monitoring the Group's capital structure in order to fulfil capital management objectives.

(2) Financial instruments

B. Financial risk management policies

- (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial position and financial performance.
- (b) Risk management is carried out by a central finance department (Group finance) under policies approved by the Board of Directors. Group finance identifies, evaluates and hedges financial risks. The Board provides written principles for written policies covering specific areas and matters, such as foreign exchange risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

- C. Significant financial risks and degrees of financial risks
 - (a) Market risk

Foreign exchange risk

- i. The Group operates internationally and is exposed to foreign exchange risk arising from the transactions of the Company and its subsidiaries used in various functional currency, primarily with respect to the USD. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities.
- ii. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency. Each company treasury hedged by using capital requirements of various currencies and foreign currency assets and certain net liabilities, or by using forward foreign exchange contracts. Exchange rate risk is measured through a forecast of highly probable USD and RMB expenditures. Forward foreign exchange contracts are adopted to minimise the volatility of the exchange rate affecting cost of forecast inventory purchases.
- iii. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: RMB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2021					
	Foreigr	n currency				
	an	nount			Book value	
	(In the	ousands)	Exchange rate		(NTD)

Price risk

The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

- (b) Credit risk
 - i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
 - ii. The Group manages their credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with optimise credit quality are accepted. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the finance department. The utilisation of credit limits is regularly monitored.
 - iii. The Group adopts the assumptions under IFRS 9, the default occurs when the contract payments are past due over 180 days.
 - iv. The Group classifies customer's accounts receivable and notes receivable in accordance with customer types. The Group applies the modified approach using a provision matrix based on the loss rate methodology to estimate expected credit loss.
 - v. The Group adjust historical and timely information to assess the default possibility of accounts receivable and notes receivable. On December 31, 2021 and 2020, the provision matrix is as follows:

			U	p to 30 days	3	31~90 days	9	1~180 days

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group. Group finance monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times.
- ii. The companies of Group invests surplus cash in interest bearing current accounts, time deposits and marketable securities(funds), and the choosing instruments were with appropriate maturities or sufficient liquidity.
- iii. The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

December 31, 2021	Less t	han 1 year	n 1 year Over 1 year		 Book value
Non-derivative financial liabilities	<u>s</u>				
Notes payable	\$	1,152	\$	-	\$ 1,152
Accounts payable		728,715		-	728,715
Other payables		577,746		-	577,746
Lease liabilities		8,464		173,200	181,664
December 31, 2020	Less t	han 1 year		Over 1 year	 Book value
Non-derivative financial liabilities	<u>s</u>				
Notes payable	\$	2,214	\$	-	\$ 2,214
Notes payable Accounts payable	\$	2,214 548,347	\$	-	\$ 2,214 548,347
1 2	\$,	\$	- -	\$ <i>,</i>

- iv. The group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.
- (d) The impact of the COVID-19 pandemic to the Company's operation

The Group assessed the related operating and financial information that there was no significant impact on the Group's ability to continue as a going concern, assets impaired and financing risks.

- (3) Fair value information
 - A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
 - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in beneficiary certificates and derivative instruments with quoted market prices is included in Level 1.
 - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in most derivative instruments is included in Level 2.
 - Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market is included in Level 3.
 - B. Fair value information of investment property at cost is provided in Note 6(9).

- C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:
 - (a) The related information of natures of the assets and liabilities are as follows:

December 31, 2021	Level 1	Level 2	Level 3	Total
Recurring fair value measurements				
Financial assets at fair value through profit or loss				
Equity securities	\$ 174,186	<u>\$ -</u>	\$ -	\$ 174,186
	\$ 174,186	\$	\$	\$ 174,186
December 31, 2020	Level 1	Level 2	Level 3	Total
December 31, 2020 Recurring fair value measurements	Level 1	Level 2	Level 3	Total
	Level 1	Level 2	Level 3	Total
Recurring fair value measurements	Level 1	Level 2	Level 3	<u>Total</u>
Recurring fair value measurements Financial assets at fair value through	Level 1 <u>\$ 173,796</u>	Level 2 \$ -	Level 3	<u>Total</u> <u>\$ 173,796</u>

(b) The methods and assumptions the Group used to measure fair value are as follows:

- i. The instruments the Group used market quoted prices as their fair values (that is, Level 1), closed-end fund is based on the closing price and the open-end fund is based on the net assets value as the fair value.
- ii. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes.
- D. For the years ended December 31, 2021 and 2020, there was no transfer between Level 1 and Level 2.

E. For the years ended December 31, 2021 and 2020, there was no transfer into or out from Level 3.

13. Supplementary Disclosures

- (1) Significant transactions information
 - A. Loans to others: None.
 - B. Provision of endorsements and guarantees to others: None.
 - C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 1.
 - D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: None.
 - E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.
 - F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
 - G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: None.
 - H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: None.

I. Trading in derivative instruments undertaken during the reporting periods: None.

- J. Significant inter-company transactions during the reporting periods: Please refer to table 2.
- (2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China) : Please refer to table 3.

- (3) Information on investments in Mainland China
 - A. Basic information: Please refer to table 4.
 - B. The significant transactions between the Company and the Mainland China investees:
 - (a) The Company entered into the sales agent contract with Supec (Suzhou) Co., Ltd. a subsidiary of Supec International Holding Ltd. According to the contract, the Company's commission expense was calculated based on the 5% of the monthly sales volume in Mainland China, for the year ended December 31, 2021 and 2020, the commission expense amounted to \$47,250 and \$45,201, respectively.
 - (b) As of December 31, 2021 and 2020, the balance of other payables to Supec (Suzhou) Co., Ltd. was \$3,310 and \$5,205, respectively.
- (4) Major shareholders information

Major shareholders information: Please refer to table 5.

14. Segment Information

(1) General information

The Group operates business only in a single industry. The chief operating decision-maker who allocates resources and assesses performance of the Group as a whole, has identified that the Group has only one reportable operating segment.

(2) Measurement of segment information

The Group is a single reportable segment. The Group's operating decision makers use the net income after tax in the financial statements as the basis for evaluating performance, so the operating segment information is consistent with that in the main financial statements.

(3) <u>Reconciliation for segment income (loss)</u>

Reportable segments income (loss) reviewed by the chief operating decision-maker was consistent with continuing operations segments income (loss), thus there is no reconciliation.

(4) Information on products and services

Details of revenue are as follows:

	 Year ended l	Devemb	ber 31
	 2021		2020
Power MOSFET IC	\$ 3,086,843	\$	2,563,009

Significant inter-company transactions during the reporting periods

Year ended December 31, 2021

Expressed in thousands of NTD

(Except as otherwise indicated)

						Transaction	
							Percentage of consolidated total
Number			Relationship				operating revenues or total assets
(Note 1)	Company name	Counterparty	(Note 2)	General ledger account	Amount	Transaction terms	(Note 3)
0	Anpec Electronics Corporation	Sinopower Semiconductor Inc.	1	Other income	3,165	Based on the price lists in force and terms that would be available to third parties	0.05%
1	Sinopower Semiconductor Inc.	Anpec Electronics Corporation	2	Right-of-use assets	6,116	Based on the price lists in force and terms that would be available to third parties	0.11%
1	Sinopower Semiconductor Inc.	Anpec Electronics Corporation	2	Lease liabilities	5,127	Based on the price lists in force and terms that would be available to third parties	0.09%

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

(1) Parent company is '0'.

(2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories; fill in the number of category each case belongs to

(If transactions between parent company and subsidiaries or between subsidiaries refer to the same transaction, it is not required to disclose twice.

For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction;

for transactions between two subsidiaries, if one of the subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.):

(1) Parent company to subsidiary.

(2) Subsidiary to parent company.

(3) Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts

and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

Note 4: The Company may decide to disclose or not to disclose transaction details in this table based on the Materiality Principle.
